

## A simpler, safer way to manage your medications.

*For anyone taking multiple medications daily*

Managing multiple medications can be difficult and confusing.  
**ExactCare can help.**

**Stay on track with your medications!**

**93%**  
of patients

Agree ExactCare makes it easier to take their medications.

*Based on a 2017 survey*

### The ExactCare Program

- Medications sorted and packaged by day and time.
- FREE monthly home delivery.
- Regular review of your medications by a clinical pharmacist.
- Refills managed for you.
- Dedicated new patient team to help you get started.

### How ExactCare Can Help You

- Eliminates the hassle of sorting and counting your pills.
- Provides peace of mind you are taking the right medications at the right time.
- Eliminates multiple trips to the pharmacy each month.
- Eliminates the stress of contacting doctors for refills.
- Helps your medications be safer and more effective—to keep you healthier.

## Getting Started with ExactCare

An ExactCare representative will visit you at home to review the program, collect your medication information and answer questions. We will also call your prescribers and introduce you to your pharmacy care team.

You are welcome to have a family member, friend or caregiver present for this appointment.
